

OFFICE OF THE
COMMISSIONER

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

March 23, 1984

MEMORANDUM FOR: Samuel J. Chilk, Secretary

FROM: Thomas M. Roberts *TMR*

SUBJECT: STAFF REQUIREMENTS MEMORANDUM, DATED JANUARY 1,
1983 RE: SECY-83-450 - UNITED NUCLEAR CORP. V.
U.S. EPA, ET AL. CIV. NO. 83-1602C, D.N.M.

I believe that before the Commission decides from among the different options before us for conforming to the EPA standards, we should receive, review, and act on the options paper the Commission tasked OGC to prepare by January 3, 1984 (see attached SRM). Noting that this paper is more than two months overdue and being aware of no reason for this delay, I expect to have the paper before the Commission no later than next week.
