Dr. Willard B. Brown, Chief
Fuel Facility Safeguards
Licensing Branch
Division of Safeguards, NMSS
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Dr. Brown:

Subject: Extension of Approval to Use Uncleared Guards at
Certain Posts

It is respectfully requested that another ninety (90) day extension of License Condition 9.3 be granted and that the effective expiration date of that License Condition be changed to January 31, 1986. This request is based on those reasons previously cited and pursuant to discussions with you and your staff on September 6, 1985. Additionally, it will allow sufficient time for permanent resolution to the continuing problem UNC faces with regard to clearance delays as discussed with Mr. O. Smith of your office subsequent to our September 6th meeting.

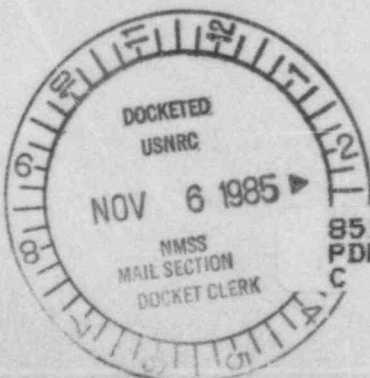

If granted, UNC will advise NRC when authorized strength is reached prior to January 31, 1986 so that License Condition 9.3 can be rescinded sooner if a permanent arrangement has not been agreed to by that date.

A check in the amount of \$150.00 is enclosed. Your continued understanding and cooperation are most appreciated.

Sincerely,

Richard J. Gigliotti
Richard J. Gigliotti
Corporate Security Director
