Mr. Charles E. McDonald  
Chief, Transportation Certification Branch  
Division of Fuel Cycle and Material Safety  
Washington, D.C. 20555

Dear Mr. McDonald:

The Pennsylvania State University hereby requests authorization to use the shipping container described by the following:

I. D. Number USA/5088/AF  
Model Number D34710-1-2

Babcock and Wilcox Corporation has recently applied for recertification of this container.

Penn State proposes to use this container to ship a total of seven (7) partial, unirradiated, MTR type fuel elements to Oak Ridge National Laboratory. Since this container will hold only 4 such elements, two shipments will be involved. We plan to make the first of the two shipments in early November.

Respectfully,

Ira B. McMaster  
Deputy Director
