Subject: copying NRC licenses being transferred to Massachusetts

Based on my conversation with John Harris, IRM, it is clear that there is no existing legal requirement that NRC copy all of the licensee records that will be transferred to Massachusetts under the upcoming Agreement. There is an unresolved issue in regard to Agreement State recordkeeping in general but this would not affect the decision to not copy the files. Unless NMSS or the Region believes that we should copy the records for some policy reason, we should proceed to prepare the records for transfer without worrying about copying the records.
