NOV 12 1985

Virginia Electric and Power Company
ATTN: Mr. W. L. Stewart, Vice President
Nuclear Operations
P.O. Box 26666
Richmond, Virginia 23261

Gentlemen:

SUBJECT: DOCKET NOS.: 50-280, 50-281, 50-338 AND 50-339

This acknowledges the receipt of your letters of September 20, 1985, which transmitted Revision 13 to the Surry Power Station and Revision 14 to the North Anna Power Station Physical Security Plans.

Our review of the changes has found portions to be consistent with the provisions of 10 CFR 50.54(p). Accordingly they are acceptable for inclusion into the plan. However, as indicated in the Enclosure, certain other changes are not consistent with the provisions of 10 CFR 50.54(p) as delineated in the enclosure to this letter. To preclude a violation of regulatory requirements, you must not continue to implement those changes deemed inconsistent.

On October 21, 1985, Ms. O. Masnyk of Region II discussed our concerns with Mr. J. Beauchamp of your office. Please revert to the commitment in your previously approved plan or, if desired, modify your plan to accommodate the enclosed comments and resubmit corrected plan pages as necessary to maintain plan continuity. Should you want to pursue those changes deemed inconsistent, you must submit a request to the Commission's Office of Nuclear Reactor Regulation, under the provision of 10 CFR 50.90 for amendment to your license.

The enclosure to your letter is being withheld from public disclosure because it contains Safeguards Information and must be protected in accordance with the provisions of 10 CFR Part 73.21.

The material enclosed herewith contains Safeguards Information as defined by 10 CFR 73.21 and its disclosure to unauthorized individuals is prohibited by Section 147 of the Atomic Energy Act of 1954, as amended. Therefore, the enclosure will not be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

Original Signed by
Roger D. Walker

Roger D. Walker, Director
Division of Reactor Projects
