Gentlemen:

Subject: Inspection No. 50-354/85-40

An Emergency Preparedness Implementation Appraisal was conducted by Mr. D. Vito and other members of an NRC inspection team on August 12-16, 1985, at the Hope Creek Generating Station, of activities authorized by NRC License No. CPPR-120. Discussions of our findings were held by Mr. Vito with Mr. R. Salveson and other members of your staff at the conclusion of the appraisal.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the appraisal team reviewed selected procedures and representative records, inspected emergency facilities and equipment, observed work practices, and interviewed personnel.

Within the scope of this inspection, no violations were observed. However, a number of critical areas of the Emergency Preparedness program were found to be incomplete. These items are discussed in the enclosed inspection report. Consequently, we are unable to make a determination regarding the adequacy of the program to protect public health and safety until corrective action is taken to resolve the deficient areas.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,
Original Signed By:
