Gentlemen:

Enclosed is Amendment No. 09 to your NRC License No. 34-18514-01 in accordance with your request.

Please be advised that we cannot authorize you to release your old radioimmunoassay area for unrestricted use (even by other members of your staff) until we have received and reviewed a copy of the results of your close-out survey. The survey should consist of exposure rate measurements to show that all sources of radioactive material have been removed, and contamination checks of areas where radioactive materials were used or stored. Average radiation levels associated with surface contamination and removable contamination should not exceed those specified in the enclosed decontamination guide. Please submit the following information with your close-out survey:

- a. A diagram of your old facility with survey and wipe test results keyed to specific locations.
- b. The name of the person performing the survey.
- c. The date the survey was performed.
- d. The instrument(s) used for exposure rate measurements and for analysis of the wipes.
- e. Background readings.
- f. The date that the survey instrument was last calibrated.

If you have any questions or require clarification of any of the above stated information, contact us at (312) 790-5625.

Sincerely,
