MEMORANDUM FOR: Docket File No. 40-8674

FROM: Paul R. Hildenbrand, Project Manager
Licensing Branch 1
Uranium Recovery Field Office, Region IV

SUBJECT: REQUEST FOR EXTENSION OF EXPIRATION DATE

By letter dated September 25, 1985, Plateau Resources, Ltd. (PRL) submitted a Final Decommissioning Report for their ore buying station located near Blanding, Utah. Since it would be impossible for the NRC to review and approve the decommissioning report prior to the expiration of the license (September 30, 1985), PRL subsequently requested a six (6) month extension to the expiration date of SUA-1326 to facilitate this action. The staff concur that the request is reasonable, and that final action concerning the decommissioning of this facility can be made within this time frame.

It is therefore recommended that Source Material License SUA-1326 be amended by revising License Condition No. 4 to read as follows:

4. Expiration Date: April 1, 1986.
