NOV 25 1985

MEMORANDUM FOR: Edward C. Shomaker, Attorney
Operations and Administration Division, ELD

FROM: Bradley W. Jones, Regional Counsel

SUBJECT: PROPRIETARY REVIEW OF INSPECTION REPORT 70-1113/85-12

Inspection Report 70-1113/85-12 documents a special inspection conducted at the General Electric facility in Wilmington, NC on June 15, 1984. Information documented therein is germane to issues raised in the \$2.206 Petition. The inspection report was initially withheld from public disclosure pursuant to 10 CFR 2.790(d).

As an initial step toward placing this inspection report in the Public Document Room, Region II identified the words which rendered the report withholdable under \$2.790(d). The Division of Safeguards, ONMSS, agreed with this determination.

Prior to placement of this report in the PDR, the licensee should be given the opportunity to review its contents for proprietary information [10 CFR 2.790(b)]. You indicated to E. J. McAlpine of this office that you would coordinate that review with the licensee. A copy of the report with \$2.790(d) information removed is enclosed.

131 Bradley W. Jones
