Docket Nos. 50-354

Public Service Electric & Gas Company
ATTN: Mr. T. J. Martin
Vice President
Engineering and Construction
80 Park Plaza - 17C
Newark, New Jersey 07101

Gentlemen:

Subject: Inspection Report No. 50-354/85-60

This refers to the routine safety inspection conducted by R. A. McBrearty of this office on November 18 - 22, 1985, at Hope Creek Generating Station, Unit 1, Hancocks Bridge, New Jersey, of activities authorized by NRC License No. CPPR-120 and to the discussions of our findings held by Mr. McBrearty with Mr. A. E. Giardino of your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, no violations were observed. However, two apparent problems were identified regarding the completeness of the documentation of preservice ultrasonic data evaluations by licensee and vendor personnel. These problems and similar ones identified in Inspection Report No. 50-354/85-46 indicate that added licensee management attention is warranted to assure the continued satisfactory implementation of the preservice inspection program.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,
