Dear Mr. Martin:

This is in response to your letter of September 26, 1985, which references our September 3, 1985 reply to your original correspondence of July 22, 1985. As you indicated there still remained two areas of the Indian Point Station Unit 1 and 2 Security Force Training and Qualification Plan that are not acceptable. On October 7, 1985, the Indian Point Security Administrator contacted Mr. William L. Kushner, of your staff, concerning this matter. In an effort to resolve NRC concerns, it was agreed that Con Edison would submit Revision 5 to the plan, which would revert back to using the training group titles of Access Control Officer and Search Control Officer and include Task #10 (Initiate and coordinate site response to contingency events), to the tasks required by the Senior Watch Supervisor. We trust that these changes will be acceptable to the NRC.

Please call me if you have any questions.

Very truly yours,

Murray Selman
