

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

MAY 7 1985

NOTE TO: Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

FROM: Hugh L. Thompson, Jr., Director  
Division of Licensing, NRR

I have signed the attached Order revoking the Zimmer Construction Permit. Cincinnati Gas & Electric Company requested this action after construction had ceased. The facility has been disabled for nuclear fuel use by removing the control rod drives from the reactor, removing fuel assemblies from the site, and severing main steam and feedwater lines. The site has been restored to an environmentally stable condition.

This action will terminate NRC regulatory authority over the Zimmer plant and site. The NRC staff has inspected the facility and found the environmental and radioactive aspects acceptable for termination of the permit.

I am advising CG&E that NRC will retain regulatory records in our files and the PDR for one year and requesting that they do likewise.

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NO. 50-358CINCINNATI GAS & ELECTRIC COMPANYDAYTON POWER & LIGHT COMPANYCOLUMBUS & SOUTHERN OHIO ELECTRIC COMPANYWM. H. ZIMMER NUCLEAR POWER STATION, UNIT 1NOTICE OF WITHDRAWAL OF APPLICATION FOR OPERATING LICENSE  
AND TERMINATION OF PROCEEDING

On March 20, 1984, Cincinnati Gas & Electric Company on its own behalf and on behalf of Dayton Power & Light Company and Columbus & Southern Ohio Electric Company (Applicants) filed a motion for an order authorizing the withdrawal of the application for an operating license for the Wm. H. Zimmer Nuclear Power Station, Unit 1. On August 29, 1984, the NRC Atomic Safety and Licensing Board issued a Memorandum and Order granting the motion.

The authorization is conditioned upon implementation of the Applicants' June 1, 1984, site restoration plan, such implementation to be verified by the NRC Staff within six months from the date of the Atomic Safety and Licensing Board's Memorandum and Order, dated August 29, 1984.

The site of the Wm. H. Zimmer Nuclear Power Station, Unit 1 is located in Washington Township, Clermont County, Ohio. The Construction Permit CPPR-88 was issued on October 27, 1972. By letter, dated November 24, 1982, the Applicants requested an extension of the construction completion date to December 31, 1984. By letter, dated October 18, 1984, Applicants have requested termination of the construction permit.
