Perry Nuclear Power Plant
Docket Nos. 50-440; 50-441
Outstanding Issue (21)
Reanalysis of Transients &
Accidents; Development of
Emergency Operating Procedures

Dear Dr. Butler:

Your letter dated December 6, 1985 requested a schedule for furnishing additional information in the longer term regarding the Perry plant-specific emergency operating procedures. Specifically, the requested information relative to alternate shutdown cooling and the applicability of the secondary containment control guideline will be addressed prior to startup following the first refueling outage.

Please feel free to contact me should you have any comments.

Very truly yours,

M. R. Edelman
