Uncasville, CT 06382

RETURN TO 396-SS  
PDR

Dear Robert:

I want to thank you for putting on your helmet, so to speak, and giving Town Council an update on decommissioning efforts at Wood River Junction. I would apologize to you for bearing up (quite well) to some misplaced comments.

Rest assured that Town Council appreciates your effort to provide updated information. However, one concern of considerable substance remains. Town Council has no mechanism or is not included in whatever communication network exists between the United Nuclear Company and regulatory agencies monitoring the situation. This is of grave concern and as you witnessed the other night, can lead to serious misunderstandings of contamination levels or the intent of company operations.

The Town Council would respectfully request that it be included in the carbon copy list of relevant informational documents concerning the decommissioning of this plant. It is our opinion the public interest will be best served through constant communication. Similarly, we will be asking the same of all regulatory agencies involved.

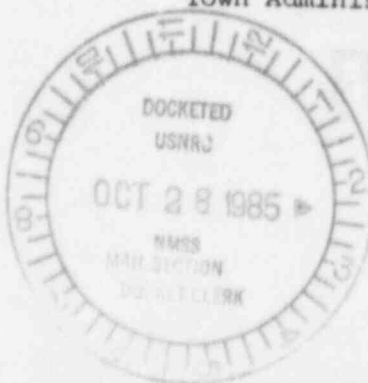

Thank you in advance for your help in this matter.

Sincerely,

Curtis A. Shook  
Town Administrator
