APPEAL TO THE COMMISSION FOR REVIEW OF APPEAL BOARD DECISION ALAB- 819 BY

ANTHONY/FOE.

DOCKETED  
OFFICE OF SECRETARY  
DOCKETING & SERVICE  
BRANCH

On 10/22/85 the Atomic Safety and Licensing Appeal Board issued its decision, ALAB- 819, affirming the Licensing Board's decision in its Second P.I.D., LBP-84-31, on our contentions V-3a and V.-3b.

We assert that the Licensing Board made a series of findings which discount or ignore the safety hazards specified in our contentions and in the the evidence presented in its hearings. The Appeal Board has perpetuated the errors of the Licensing Board in its decision ALAB-819.

Intervenor R.L.Anthony/FOE hereby appeals to the Commission to review the Appeal Board decision and to reverse its affirming of LBP-84-31.

Respectfully submitted,
