Dear Senator Specter;

I am writing in concern against the  
Seminole Nuclear Power generating plant. I am very  
disappointed in seeing the plant acquire a license to  
operate. I really don't see a need for it; it will  
increase the cost of our electricity; it will lower our  
already two foot below normal water level of the  
Schuylkill river. we are still in a drought  
condition! what can be done to procure our river to  
its proper water flow and cleanliness?

I seriously don't think it is too late to shut down  
the powerplant.

Respectfully,  
Robert D. Giacomo
