September 13, 1985

U. S. Nuclear Regulatory Commission, Region III  
Materials Licensing Section  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Attention: Mr. Mike McCann

Subject: Mail Control No. 79641

Gentlemen:

This letter is in response to our recent telephone conversation regarding the subject application.

1. Clarification of intended use of LD2220 Level Detector

Reams Controls is an equipment sales company who will transport the unit to clients for demonstration purposes by one of our trained sales engineers.

We will also train customers in end-use so that they are authorized to use the device.

2. Demonstration Sites

Unit will be demonstrated at industrial clients facilities and trade shows always under the supervision of a trained sales engineer from Ream Controls.

The device will not be left at a customer's facility for demonstration and will be secured at Reams Controls after use.

3. Number of units needed to do business.

Please authorize five (5) devices.

4. Service and repair

It is not Reams Controls' intention to do service and repair. The units will be returned to Fisher Controls for repair.

5. Training program

We are working presently with Fisher Controls to develop a user/customer training program which will be submitted when available.

The user/customer program will be approximately 2-3 hours in length and consist of:

- A. Radiation protection & principles
- B. Troubleshooting of device
- C. Hands-on use of device
- D. Testing & retesting if necessary for competency
- E. Certificate of satisfactory completion

The user/customer training program will be conducted by Milton Hauck or Jack Rodgers of Reams Controls, both of which have completed a one-day trainer/demonstration program from Fisher Controls. Arrangements have been made with Fisher for any necessary additional training.

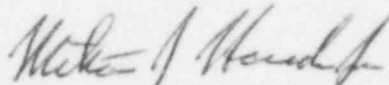

Milton Hauck has a mechanical engineering degree from the University of Cincinnati, Class of 1961, with some nuclear physics courses.

Jack Rodgers has a mechanical engineering degree from the University of Pittsburgh, Class of 1973, two years of graduate engineering and a professional engineers license.

I trust this letter will furnish the additional information required for processing of our application.

Very truly yours,

REAMS CONTROLS INC.

Milton J. Hauck, Jr.
