Director
Office of Nuclear Materials Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

U.S. NRC
12. FEE MGMT. BRANCH

Dear Sirs:

Enclosed you will find an application for a materials license-medical (NRC form 313M). St. Vincent Carmel Hospital is presently being built and is scheduled to open October 1, 1985, therefore, if at all possible we ask that the application be expedited so that we may receive our license to use in ordering our flood source and calibrator sources.

Thank-you.

Sincerely,

Ann Cole
