85-1

MEMORANDUM FOR: John D. Philips, Chief
Rules and Procedures Branch
Division of Rules and Records
Office of Administration

FROM: George H. Bidinger
Uranium Process Licensing Section
Uranium Fuel Licensing Branch
Division of Fuel Cycle and Material Safety, NMSS

SUBJECT: DRAFT REGULATORY GUIDE AND VALUE/IMPACT STATEMENT
TASK CE 304-4, DECEMBER 1985

The subject draft needs a chapter on nuclear criticality safety, probably just before or after Chapter 2, for certain Part 70 licensees. Babcock and Wilcox Company, Apollo, Pennsylvania, found 121 kg of U-235 during decommissioning. This represents many minimum critical masses and warrants consideration during decommissioning.
