Re: License No. 12-18975-01

Dear Mr. Mallett:

Enclosed please find our re-application for our by-product material license which expired July 31, 1985. Also enclosed is our new license application fee of \$230.00

Please note the only change in our permit application is the listing of Ray Bowns as the "responsible individual" at this plant location. He has received appropriate training as noted in the application.

While we regret the circumstances leading to the expiration of our license, we have prepared our existing source for look-out and storage using procedures described in our application, until a new license is issued.

If you have any questions processing this application, please contact Ray Bowns at 217-784-8261.

Sincerely,

CENTRAL SOYA COMPANY, INC.

Dave L. Wilbur
Plant Manager
