

"OFFICIAL RECORD COPY"

DEC 24 1985

Caribbean Drilling Services, Inc.
ATTN: Mr. Kenneth Eastman
President
P. O. Box 45, Kingshill
St. Croix, Virgin Islands

Gentlemen:

SUBJECT: NOTICE OF VIOLATION FOR EXPIRED LICENSE

NRC records show that the Byproduct Material License No. 55-19508-01 expired on October 31, 1985, and no renewal application has been filed in accordance with 10 CFR 30.36.

We have made repeated attempts to contact you to determine if byproduct material was possessed under this license. Possession of byproduct material without a valid license is a violation of 10 CFR 30.3. The violation, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

If you want to continue your program, you must immediately submit the enclosed NRC Form 313(I), "Application for Byproduct Materials License," to the address below with the appropriate fee for a new license as specified in the enclosed 10 CFR 170.

U. S. Nuclear Regulatory Commission
ATTN: Chief, Nuclear Materials
Safety Section
101 Marietta Street, N. W., Suite 2900
Atlanta, Georgia 30323

Also, you must place any radioactive material on hand in secure storage until such time as you acquire a valid license. If adequate storage facilities are not available, you must transfer the material to an authorized recipient until a new license is issued. No other use of the material on hand or purchase of additional byproduct material is authorized.

If you elect to dispose of the byproduct material, you must fill out the enclosed NRC 314 and return it to us immediately.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.
