License No. 20-02082-02
Docket No. 030-01842
Control No. 119110

Eye Research Institute of Retina Foundation
ATTN: Richard L. Pharo, Sc.D.
Director of Research Administration
20 Staniford Street
Boston, Massachusetts 02114

Gentlemen:

Please find enclosed an amendment to your NRC Material License.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

Sodium-22, an accelerator produced isotope, is not byproduct material as defined in Section 30.4(d) of Title 10, Code of Federal Regulations, Part 30, and is not subject to licensing by the NRC. Therefore, you may procure and use it without reference in your byproduct material license. You should contact the Massachusetts regulatory authorities to determine the licensing or registration requirements for use of this radionuclide.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation, or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

CONVERSATION

SUBJECT

Request to increase possession limit of I-125

SUMMARY

Asked Dr. Pharo if he wanted to increase limit of I-125 or I-131 because they already have a limit of 25 millicuries for I-125. He apologized - looked at old license which only had 10 mCi of I-125. --- eliminate that request.
