RE: Materials License #13-16558-01

Gentlemen:

This is in request of amendment to the above referenced materials license for the following:

1. Add the name of Francis Roche, M.D., as an authorized user for nuclear medicine procedures, to our materials license. Please reference the Little Company of Mary Hospital, Evergreen Park, Illinois NRC license (no. 12-03415-02), for documentation of Dr. Roche's experience with byproduct materials. Please authorize Dr. Roche for all procedures for which he is eligible.
2. Add the name of Vincent Ko, M.D., Pathologist, as an authorized user for in-vitro diagnostic procedures, to our materials license. Documentation of Dr. Ko's training and experience with the types and amounts of byproduct material is attached for your review. We request a possession limit of 3 millicuries for in-vitro materials.

Our \$120 hospital check, payable to the U.S. Nuclear Regulatory Commission is enclosed to cover the amendment application processing fees.

Thank you.

Sincerely,

Robert L. Beyer, Vice President  
Division of Clinical Services
