

NOV 14 1985

Docket: 40-08027/85-02

Sequoyah Fuels Corporation
ATTN: J. C. Stauter, Director
Nuclear Licensing and Regulation
Kerr-McGee Center
Oklahoma City, Oklahoma 73125

Gentlemen:

This refers to the unannounced radiation safety inspection conducted by Mr. R. Wise of this office on August 29, 1985, of the activities authorized by NRC Source Material License SUB-1010 and to the discussion of our findings held by the inspector with members of your staff at the conclusion of the inspection. The enclosed NRC Inspection Report 40-08027/85-02 documents this inspection.

The purpose of the inspection was to inspect the waste burial sites and to obtain S-well samples to determine the causes of elevated pH and conductivity. The inspection consisted of a general plant review, review of waste burial sites and S-well sample collection.

No violations of NRC requirements were identified during this inspection.

Should you have any questions concerning this letter, we will be pleased to discuss them with you.

Sincerely,

Original signed by:
Richard L. Bangart *for*
