Dear Mr. Glenn:

In response to your letter and Notice of Violation we would like to make the following comments:

A. As of August 15, 1985 all gas tubes containing PM-147 are stored in a restricted fenced-in area to be accessed by the supervisor and two material handlers only.

B. As of August 19, 1985 copies of the licenses, license conditions and documents incorporated into the licenses were prominently posted in the Mt. Laurel, New Jersey warehouse.

We apologize for these violations and I have instructed our Warehouse Manager to comply with all conditions of the licenses.

If you have any additional questions, please contact me.

Very truly yours,
SIEMENS COMPONENTS, INC.
