Gentlemen:

Subject: Inspection Report No. 030-12735/85-01

This refers to the routine, safety inspection conducted by Mr. L. M. Tripp of this office on September 25, 1985, of activities authorized by NRC License No. 08-17424-01 and to the discussions of our findings held by Mr. Tripp with Mr. Walter E. Johnson of your staff at the conclusion of the inspection and to a subsequent telephone discussion between you and Mr. Tripp on September 25, 1985.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Our inspector also verified the steps you have taken to correct the violation brought to your attention in the enclosure to our letter dated April 4, 1978. We have no further questions regarding your action at this time.

Within the scope of this inspection, no violations were observed.

From the discussion on September 25, 1985, it is our understanding that you no longer possess material under the authorization of this license and that you plan to submit the enclosed Certificate of Disposition of Materials with a letter requesting termination to this office. If our understandings are incorrect, please inform us in writing.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.
