

Docket Nos. 50-317  
and 50-318

November 6, 1985

Mr. A. E. Lundvall, Jr.  
Vice President - Supply  
Baltimore Gas & Electric Company  
P. O. Box 1475  
Baltimore, Maryland 21203

Dear Mr. Lundvall:

Your letter dated October 15, 1985 states that the reactor coolant pumps will be examined in accordance with ASME Code Section XI 1974 edition with Addenda through 1975, Article IWA-5240, during the hydrostatic test. This inspection, together with the visual inspection of the pump casing of one pump per unit (in accordance with IWA-2210) is herein interpreted as sufficient to meet the "visual" inspection requirements for the reactor coolant pump casings as contained in our safety evaluation dated September 18, 1985 concerning relief from certain ASME Boiler and Pressure Vessel Code Requirements

Sincerely,

Edward J. Butcher, Acting Chief  
Operating Reactors Branch No. 3  
Division of Licensing
