**WORK AUTHORIZATION**

File: 0485.16 UFI: 42\*05\*22\*04 Serial: JAM-08-85

Reference: CSM-0834 dated August 8, 1985, JAMooney to RBLandsman

Per August 26, 1985 phone conversation between R H Wieland of CPCo and yourself, CPCo requested authorization to perform additional excavation between the tank farm and the auxiliary building. This is necessary to provide supplemental plant cathodic protection north of the Auxiliary Building during the shutdown and maintenance phase. This work on the cathodic protection system is in addition to the work covered in the referenced letter.

CPCo will proceed with this activity based on your August 26, 1985 authorization.
