Subject: [External_Sender] ACRS MEETING RE NUSCALE DCA
Date: Thursday, May 07, 2020 4:00:26 PM

Dear Mike,

I think there would have been less argument in the ACRS letter-writing meeting today if the members had been provided with, or the members had accessed, the meeting summaries of the NRC April 1 and 15 NRC/NuScale meetings regarding the ECCS Boron Distribution and the information that the NRC staff is requesting and breadth of the NRC request and concerns.

Sarah Fields
