Docket No. 50-352

Dr. Thomas E. Murley, Administrator
Region I
U.S. Nuclear Regulatory Commission

King of Prussia, PA 19406

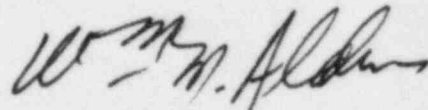

SUBJECT: Correction to our November 13, 1985
letter submitting a revision to the
Semi-Annual Effluent Release Report
No. 2 for Limerick Generating Station

Dear Dr. Murley:

This letter is being submitted to correct an error, due to an administrative oversight, in that the correct Docket Number was not provided on our transmittal letter for a revision to the Semi-Annual Releases Report No.2 for the period January 1, 1985 through June 30, 1985 for Limerick Generating Station. Our letter dated November 13, 1985, which submitted the revision, incorrectly referenced Docket Nos. 50-277 and 50-278 (Peach Bottom Units 2 and 3) and is being corrected to Docket No. 50-352 (Limerick Generating Station). Additionally, this letter corrects the designated Site Inspector to receive a carbon copy of the revision from the Peach Bottom to the Limerick Site Inspector.

As a matter of completeness, enclosed is a corrected copy of the November 13, 1985 letter complete with its original attachments.

If you have any questions, please do not hesitate to contact us.
