Subject: **Emergency Plan Implementing Procedures Revision**

In accordance with the requirements of 10 CFR Part 50, Appendix E, Section V, 10 CFR 50.54(q)(5), and 10 CFR 72.44(f), the following Emergency Plan Implementing Procedures (EPIP) have been revised with administrative and editorial changes:

<u>EPIP</u>	<u>Revision</u>	<u>Title</u>	<u>Effective Date</u>
10	31	Medical Emergency Response	04/24/2020
11	18	Security and Access Control	04/07/2020
15	20	Emergency Exposure Guidelines	03/31/2020

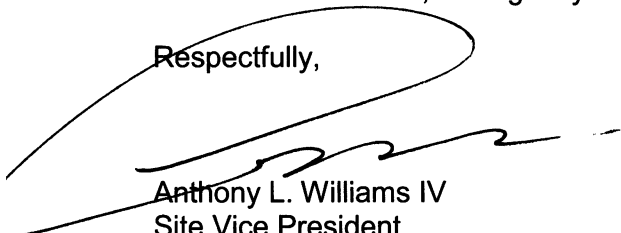

The above referenced revisions continue to comply with regulations and there is no reduction in effectiveness of the plans. Details of the revisions are included in Enclosure 1.

While preparing this letter, it was identified that the revisions to EPIP-11 and EPIP-15 were not submitted within 30 days. This issue has been entered into the Corrective Action Program.

Enclosure 1 Description of Revision/Change

EPIP-10, Rev 0031

- Removed the words Section and Shift from references to Fire Protection Section and Duty Team, removed title Fire Protection Duty Supervisor and updated pager number.
- Changed title of Designated Unit Supervisor to Incident Commander (IC), all due to updated staffing plan.
- Revised Attachment 2, SM Checklist, to add steps for hospital notification and notification phone numbers to allow deleting separate Attachments 3 and 4.
- Updated title to SM Actions and removed step to direct performance of Attachment 2.
- Removed TVA Ambulance from onsite emergency contact.
- Changed all supplemental material from Appendix to Attachment and formatted to align with Writer's Guide direction and eliminated checklist format due to updated placekeeping practice makes them redundant.
- Changed all references from Appendix to Attachment throughout procedure. In all Attachments, changed EMT, EMS, EMR and MERT Leader to MERT, and changed EMT to ambulance personnel in Attachment 2 for consistency with new staffing and titles.
- Changed title of Attachment 4 to Medical Response Guidelines and revised NOTE to read that guidelines apply to MERT responders.
- Replaced specific RP devices with term "appropriate radiation monitoring device".
- Revised 2.0 References Section to align with procedure template.
- Removed course number and description of CBT for Blood borne pathogen training. The training is controlled by curriculum assignment in LMS.
- Updated records description and retention requirements in Section 4.0 to align with fleet standard. Designated specific Attachments as QA or NON-QA records during actual events or drills. (CR 1490450)

EPIP-11, Rev 0018

- Revised 2.0 Reference section to align with Writers Guide template.
- Revised Records Retention section to conform to fleet standards (CR 1490450).
- Changed supplemental material titles from Appendix to Attachment per the Writer's Manual.

- Revised Appendix to Attachment throughout the document. Corrected grammar and punctuation errors. Changed words “will be authorized access” to “shall have access”.
- Changed format in section 3.3 for clarity. Added REP to RP van description to add clarity.
- Removed Attachment 3, directions to JIC and the outdated picture as no longer needed.

EPIP-15, Rev 0020

- Revised the list of records for retention to be consistent with fleet guidelines (CR 1490450).
- Changed all supplemental material from Appendix to Attachment to align with Writer's Guide direction.
- Changed all references from Appendix to Attachment throughout procedure.
