## General Comment

Regarding Holtec irradiated nuclear fuel Consolidated Interim Storage Facility (CISF) Draft Environmental Impact Statement (DEIS):

I object to NRC's woefully inadequate, to nearly non-existent, treatment of highly radioactive waste transport risks. This violates the long-established legal requirement under the National Environmental Policy Act (NEPA) that NRC take a "hard look" at the Holtec CISF proposal, including its inextricably linked high-risk transportation component, impacting most states in the Lower 48.
