Dear Mr. Ramey:

This will advise you that the Commission has today issued an order citing the Uranium Reduction Company of Moab, Utah for noncompliance with the Commission's Regulations, "Standards for Protection Against Radiation," Part 20, Title 10, Code of Federal Regulations, and ordering them to submit a statement by August 15, 1959, setting forth the steps they will take to achieve correction. A copy of the order is enclosed.

This order is similar to the five uranium mill orders which were forwarded to you by our letter of May 25, 1959.

Sincerely yours,
