Gentlemen:

This refers to the inspection conducted by Mr. M. E. Skow of this office during the period December 9-13, 1985, of activities authorized by NRC Operating License DPR-34 for Fort St. Vrain Nuclear Generating Station, and to the discussion of our findings with Mr. J. W. Gahm and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection included nonlicensed operator training and follow-up to NRC Inspection Report 50-267/85-26. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations by the inspector. These findings are documented in the enclosed inspection report.

During this inspection certain of your activities were found not to be conducted in full compliance with NRC requirements. Consequently, you are required to respond to this matter in writing in accordance with provisions of Section 2.201 of the NRC "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Your response should be based on the specifics contained in the Notice of Violation enclosed with this letter.

We have also examined actions you have taken with regard to previously identified inspection findings. The status of these items is identified in paragraph two of the enclosed report.
