

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

NOV 18 1977

DOCKET NO.: 40-3453

LICENSEE: Atlas Minerals

FACILITY: Atlas Uranium Mill, PDES

SUBJECT: MEETING HELD ON NOVEMBER 8 AND 9, 1977 AT THE
ANL, ARGONNE, ILLINOIS, BETWEEN REPRESENTATIVES
OF ANL AND NRC

PURPOSE: Working meeting to reformat Atlas PDES
to standard format promulgated by
Ross Scarano, November 7, 1977

ATTENDEES: NRC - F. Lomax

ANL - Phil Gustafson
Bill Hallet
Raj Sharma
Luis Saguinsen

John Martens
Charles LaFrance
Ping Chee

Summary

The meeting was a working meeting prearranged by Messrs. Scarano and Gustafson. Immediately upon my arrival, ANL personnel were made available to rewrite PDES sections as required. Editorial and typing personnel as well as the project manager worked directly with me to complete the reformatting by about 6:00p on November 8, 1977. Typing and editing personnel stayed later to prepare the masters. Most of the masters were available by 9:00a on November 9. Several more changes were made on November 9, and I brought a xerox copy of all but a few masters back on the afternoon flight. John Linehan brought five complete xerox copies on the evening flight, and the masters were pouched down on November 10, 1977.
