T. R. Jones, Chemistry Branch
Division of Research, Headquarters

THORIUM-230 FOR URANIUM REDUCTION COMPANY

You are hereby authorized to arrange for the transfer of one microgram of Thorium-230, in 10 to 100 milliliters of solution, from the research pool at ORNL to the Uranium Reduction Company, Moab, Utah.

The material should be provided under the same terms and conditions you established for the transfer of a Th-230 sample to the Union Carbide Nuclear Company authorized February 25, 1960.

Instructions for obtaining this sample should be sent to Dr. John Goff, Chief Chemist, URC, P. O. Box 483, Moab, Utah.

A license is not required for the possession and use of the sample described in this authorization.
