Mr. Leland C. Rouse, Chief
Fuel Processing & Fabrication Branch
Division of Fuel Cycle & Material Safety
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Rouse:

This is in response to your request of November 30, 1977, for comments on the draft environmental statement (DES) for the Moab Uranium Mill, Grand County, Utah.

The Council has reviewed the DES and notes that the Nuclear Regulatory Commission has determined that the proposed undertaking will not affect properties included in or eligible for inclusion in the National Register of Historic Places. It is suggested that the final environmental statement contain the Utah State Historic Preservation Officer's concurrence in the NRC's determination of no effect.

Should you have any questions or require additional information regarding this matter, please contact Brit Allan Storey of the Council staff at P. O. Box 25085, Denver, Colorado 80225, or at (303) 234-4946, an FTS number.

Sincerely yours,

Louis S. Wall
Assistant Director, Office of
Review and Compliance, Denver
