SOURCE MATERIAL LICENSE

License No. R-161  
Amendment No. 5

Dated: DEC 28 1959

Uranium Reduction Company  
P. O. Box 488  
Moab, Utah

Gentlemen:

Pursuant to the Atomic Energy Act of 1954 and Section 40.21 of the Code of Federal Regulations, Title 10 - Atomic Energy, Chapter 1, Part 40 - Control of Source Material, you are hereby authorized, in accordance with the procedures described in your application for license and your letter of August 10, 1959:

To receive possession of and title to raw source material from producers and distributors thereof licensed by the Atomic Energy Commission for processing at the Moab, Utah, facility.

To transfer raw source material from any location to your plant at Moab, Utah, for processing.

To receive, transfer, or deliver possession of or title to refined source material, in the form of uranium concentrates, to the Atomic Energy Commission and to persons appropriately licensed by the Commission.

The issuance of this license shall not be construed as constituting any determination by the AEC with respect to the right of the licensee to conduct mining operations on or to enter onto any property or location referred to herein.

As a condition of this license, you are required to maintain records of your inventories, receipts and transfers of refined source material.

This license is subject to all the provisions of the Atomic Energy Act of 1954 now or hereafter in effect and to all valid rules and regulations of the U. S. Atomic Energy Commission, including 10 CFR 20 "Standards for Protection Against Radiation", except that exemption is hereby granted from Sections 20.203(e)(2) and 20.203(f)(2) for areas and containers in the plant, provided that all entrances to the mill are posted in accordance with Section 20.203(e)(2) to indicate that all areas and containers in the plant may contain radioactive material.
