Gentlemen:

Pursuant to the Atomic Energy Act of 1954 and Section 40.21 of the Code of Federal Regulations, Title 10 - Atomic Energy, Chapter 1, Part 40 - Control of Source Material, you are hereby authorized, in accordance with the procedures described in your application for license and your letter of August 10, 1959:

To receive possession of and title to raw source material from producers and distributors thereof licensed by the Atomic Energy Commission for processing at the Moab, Utah, facility.

To receive, transfer, or deliver possession of or title to refined source material, in the form of uranium concentrates, to the Atomic Energy Commission and to persons appropriately licensed by the Commission.

As a condition of this license, you are required to maintain records of your inventories, receipts and transfers of refined source material.

This license is subject to all the provisions of the Atomic Energy Act of 1954 now or hereafter in effect and to all valid rules and regulations of the U. S. Atomic Energy Commission, including 10 CFR 20 "Standards for Protection Against Radiation", except that exemption is hereby granted from Sections 20.203(e)(2) and 20.203(f)(2) for areas and containers in the plant, provided that all entrances to the mill are posted in accordance with Section 20.203(e)(2) to indicate that all areas and containers in the plant may contain radioactive material.

Neither this license nor any right under this license shall be assigned or otherwise transferred in violation of the provisions of the Atomic Energy Act of 1954.

This license shall expire December 31, 1966.

Gentlemen:

Enclosed is AEC License R-161, as amended, which has been extended to expire on December 31, 1966, in accordance with your request.

We are presently conducting a survey of your Moab installation. The Commission's action in extending the termination date of this license is not to be construed as prejudicing any action which might be taken by the Commission as a result of this survey or as a result of surveys or inspections made in the future.

Sincerely yours,
