# Memorandum

TO : File

DATE: August 9, 1962

FROM : Lyall Johnson *Q*

SUBJECT: DOCKET 40-3453 - TRANSFER OF LICENSE FROM URANIUM REDUCTION  
COMPANY TO ATLAS CORPORATION

This refers to letters dated July 16 and 20, 1962, from Uranium Reduction Company and Atlas Corporation, respectively, requesting transfer of Source Material License No. R-161 from URC to Atlas. The license authorizes the processing of uranium-containing ores at the URC mill located at Mbab, Utah.

The Atlas application states that it intends to operate the plant in accordance with the procedures and representations heretofore made to the Commission by URC and that Atlas plans no change in supervisory or operating personnel of the plant.

Based on a review of the data submitted by Atlas Corporation and Uranium Reduction Company it is hereby found that:

1. The application is for a purpose authorized by the Act;
2. Atlas Corporation is qualified by reason of training and experience to use the source material for the purpose requested in such manner as to protect health and minimize danger to life or property; and
3. Atlas Corporation's proposed equipment, facilities and procedures are adequate to protect health and minimize danger to life or property;
4. The transfer of Source Material License R-161 to Atlas Corporation will not be inimical to the common defense and security or to the health and safety of the public; and
5. The transfer is in accordance with the provisions of the Atomic Energy Act of 1954, as amended.

Accordingly, action is being taken to transfer the license pursuant to the requests submitted by URC and Atlas Corporation.
