Re: Review of Safety Analysis Report for the FFTF Fuel Pin
Shipping Cask Model - T3, Revision 3

Dear Sam:

As per your request, I have reviewed the Subject shipping package.
My report is in a format, suggested by you and is attached to this letter.

In general, I find the T-3 to be well engineered. The analysis
performed to prove the satisfaction of the requirements of 10 CFR Part 71
is in general complete with some hard to justify assumptions and potentially
with one error requiring further communications.

Very truly yours,

Zenons Zudans
Senior Vice President
