

MAR 18 1986

Docket Nos. 50-440/441

Mr. Murray R. Edelman  
Vice President - Nuclear Group  
The Cleveland Electric Illuminating Co.  
P.O. Box 5000  
Cleveland, Ohio 44101

Dear Mr. Edelman:

SUBJECT: PROPOSED FSAR CHANGES - PERRY NUCLEAR POWER PLANT (UNITS 1 AND 2)

By letter dated March 13, 1986, CEI provided draft copies of pending changes to the Perry FSAR, which are to be formally documented as proposed Amendment 25 to the FSAR, after issuance of the low power license for Perry, Unit 1. These changes consist primarily of editorial and typographical corrections to the FSAR and some other minor changes to make the FSAR consistent with the as-built plant. The draft revised pages of the FSAR reflecting each change (enclosed with your March 13, 1986 letter) have received a preliminary review by the NRC staff and have been found to be acceptable for low power licensing.

Upon receipt of the proposed changes via a formal FSAR Amendment, we will complete our review and document our findings in a supplement for the Perry SER (NUREG-0887). It is expected that your formal FSAR Amendment will be received in time so that we may complete our review prior to full power licensing of Perry Unit 1.

Sincerely,

**Original Signed by**

Walter R. Butler, Director  
BWR Project Directorate No. 4  
Division of BWR Licensing
