Attention: Mr. David A. Nyberg
Radiation Protection Officer

Gentlemen:

Enclosed is the NRC license amendment which you requested.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify us so that we can provide appropriate corrections and answers.

Please note that minor changes have been made to your license to make it consistent with current NRC policy. Particularly, License Condition 11., which was previously listed on the license, was deleted since it merely referenced regulations. Condition 17, (Amendment No. 1) was added to your license.

Finally, you should note that Gulf Nuclear Model VL-1 sources are currently authorized by Subitem C. There is no limit on the number of these sources you may possess, as long as the 100 millicurie per source limit is not exceeded.

Any future correspondence relating to your license should specifically reference your license and docket numbers to expedite your inquiry.

Sincerely,
