In the Matter of
LONG ISLAND LIGHTING COMPANY
(Shoreham Nuclear Power Station, Unit 1)
Docket No. 50-322-OL-3 (Emergency Planning)

Dear Appeal Board Members:

On January 10, 1986, the Long Island Lighting Company (LILCO) submitted to the NRC Staff (Staff) Revision 6 of the Shoreham Nuclear Power Station Local Offsite Radiological Emergency Response Plan. By Memorandum dated January 16, 1986, copy attached, the Staff requested the Federal Emergency Management Agency (FEMA) to review Revision 6 of the Shoreham offsite plan and to provide findings and determinations to the NRC as appropriate. It is the Staff's understanding that FEMA will provide the results of its review to the NRC by February 10, 1986.

Sincerely,

Bernard M. Bordenick

MEMORANDUM FOR: Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological Hazards
Federal Emergency Management Agency

FROM: Edward L. Jordan, Director
Division of Emergency Preparedness
and Engineering Response
Office of Inspection and Enforcement

SUBJECT: FEMA REVIEW OF THE LILCO TRANSITION
PLAN FOR SHOREHAM

The Long Island Lighting Company (LILCO), in a letter to H. R. Denton, NRC, dated January 10, 1986, submitted Revision 6 of the Shoreham Nuclear Power Station Local Offsite Radiological Emergency Response Plan. LILCO notes that the majority of the page changes in Revision 6 are the result of the use of the Concourse Area in the Nassau Coliseum and the relocation of one transfer point.

We request that FEMA review Revision 6 of the Shoreham offsite plan and provide findings and determinations to the NRC as appropriate. A copy of Revision 6 is enclosed. Based on a discussion with Robert Wilkerson of your staff, we understand that FEMA will provide the results of its review by February 10, 1986.

SNRC-1228

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Submittal of Revision 6: Local
Offsite Radiological Emergency Response Plan
Shoreham Nuclear Power Station - Unit 1
Docket No. 50-322

Dear Mr. Denton:

On May 26, 1983, the Shoreham Nuclear Power Station Local Offsite Radiological Emergency Response Plan was submitted as part of the Atomic Safety and Licensing Board Docket No. 50-322.

Please find attached six sets of the revised pages that make up Revision 6 of the Plan, Procedures and Appendix A. Attachment 1 to this letter contains the instructions for inserting the revised documents into the Plan and Procedures. Attachment 2 is a letter that discusses the changes included in Revision 6.

In summary, none of the operational concepts contained in Revision 5 are affected by the attached Revision 6. We would like to point out that the two items of which caused the bulk of page changes are the use of the Concourse Area in the Nassau Coliseum and the relocation of one transfer point.

We ask that you cause a request to be made to FEMA, pursuant to the NRC-FEMA Memorandum of Understanding, for an expedited review of Revision 6. To this end, we are forwarding under separate cover, consistent with past practice and in conformance to our control copy distribution, a total of sixteen (16) controlled copies of Rev. 6 directly to members of the RAC.

Should you have any questions, please contact this office.

John D. Leonard, Jr.
Vice President-Nuclear Operations
