(Low Power Test Proceeding)

JOINT INTERVENORS REQUEST TO  
EXCEED PAGE LIMITATION  
FOR THE MOTION FOR A STAY

10 C.F.R. §2.788(b) limits a motion to stay to ten (10) pages in length. The Joint Intervenor's request permission to exceed that page limitation. Joint Intervenor's motion to say is fifteen (15) pages and, therefore, exceeds the page limitation by five (5) pages. We submit that this request is reasonable in view of the number and complexity of the issues addressed in the motion.
