Dear Mr. Kintner:

Reference: Enrico Fermi Atomic Power Plant, Unit 2
NRC Docket No. 50-341

Subject: Seismic Reassessment of NSSS - Piping

Our initial response to your request for a completion date of the subject (as built) piping reanalysis was provided in our letter of August 25, 1981 (EF2-54,761). You subsequently advised us by telephone that the date was unacceptable. We have reevaluated our schedule for this work and can now commit to providing the analysis by April 26, 1982.

Sincerely,
