October 20, 1977

Mr. Frank Lomax, NMSS
FCPF - URNRC
7915 Eastern Avenue
Silver Springs, Md. 20906

Dear Mr. Lomax:

A sample of ground water from a point across the river from the mill site has been obtained and analyzed. The sample was obtained from a backhoe trench, dug in an area presently covered with tamarack, into which several feet of water had seeped. The composition of this water was:

Cl - 19,860 ppm

SO₄ - 3,190 ppm

I hope this information will be of value to you.

Sincerely,

Richard A. Adrian

Richard A. Adrian
General Superintendent
