Mr. LeRoy Person  
Regulatory U.S.A.E.C.  
Washington, D.C. 20545

Dear Mr. Person,

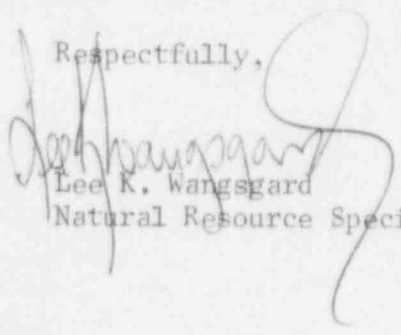

In response to your phone request of today I am sending you a U.S.G.S. quad map of the Moab area around the Atlas Uranium Mill. Atlas is the "Ore Reduction Plant" shown in Section 27. Most of Section 35 is in agriculture, specifically grass fields which are sub-irrigated. The nearness of homes, etc. to the Atlas plant is as indicated on the map. Other agricultural use is a few orchards as shown and some hay fields in Spanish Valley just off this map. Private land is outlined in red, State land in blue and the BLM land is not colored nor is Arches National Park. Water courses, topography and geological features are pretty much self-explanatory on the map.

There is really no other resource use in the immediate vicinity of the mill except for some livestock trailing up and down Moab Canyon, and of course highway travel associated sightseeing.

In Sections 27 and 28 where it shows Atlas' tailings pond, I am not certain whether that is the true status for State land or not because all our records are up to date on is BLM land. The State may have conveyed this land to Atlas.

I hope this has been of some help to you. For specific land owners I suggest you contact the county recorders office at the Grand County Court House, Moab.

Respectfully,

  
Lee K. Wangsgard  
Natural Resource Specialist
