Attention: Material Licensing Section

Subject: Application for Amendment  
Byproduct License 12-05650-19  
Add Mazon EOF

Dear Sir:

Commonwealth Edison is hereby applying for an amendment to byproduct license 12-05650-19. The amendment would cover the use and storage of a TLD beam calibrator at the Mazon EOF. The general arrangement of this facility will be similar to the facility at the Zion EOF which was included in the original license. The application references information contained in the Zion EOF submittal where appropriate and contains site - specific information where different conditions exist.

Per section 170.11 (a)(3) no fee is required.

Please direct any questions regarding the application to this office.

Respectfully,

Greg Alexander  
Nuclear Licensing Administrator
