Dear Mr. Wilkinson:

Please find enclosed Amendment No. 08 terminating License No. 29-27951-01 as requested by letter dated April 30, 1997.

Your cooperation with us is appreciated.

Sincerely,

RE: LICENSE TERMINATION (29-27951-01)

To whom it may concern:

In accordance with an April 22, 1997 telephone conversation, with Judy Joustra, the following is an explanation of events concerning the alleged overdue invoice for Golder Associates Inc. (GAI) License No. 29-27951-01. In April of 1996 GAI received a yearly invoice for Nuclear License No. 29-27951-01. GAI called the local NRC Office to inform them of our intention to terminate our license for our nuclear moisture-density gauges. GAI was notified that the 1996 invoice was for the year that had past (1995), not for the 1996 calendar year. GAI paid the invoice and asked about how to go about terminating our license. We were instructed to fill out a termination form (faxed to GAI) and submit with the check sent to the NRC. GAI forwarded a check for the 1995 calendar year with the termination form.

GAI then transferred ownership of our two nuclear moisture-density gauges to Golder Construction Services, Inc. (GCS) Materials License No. 29-28576-01 (see attached internal memorandum). GCS (which has the same mailing address as GAI) amended its license to reflect a change in RSO and other offices using nuclear moisture-density under the GCS license.

GAI then received another invoice for the 1996 calendar year. Brenda Brown and Judy Joustra were contacted to inquire about this invoice and GAI was informed that the changes never made it into the system. Judy Joustra suggested that I contact your office, explain the chain of events and hopefully clarify what appears to be a minor clerical error. I hope this completes the information you requested.

If you have any questions, please contact us at (609) 722-9060.

Very truly yours,

GOLDER ASSOCIATES INC.

Robert M. Wilkinson
Laboratory Manager and RSO

MEMORANDUM

TO: Tamara Negler
Steve Finn
Jim Whitty
Tim Martin
Dave List

August 15, 1996

FROM: Robert Wilkinson *RW*

RE: TRANSFER OF NUCLEAR GAUGE (x2) FROM GAI-MTL TO GCS-MTL

The purpose of this memorandum is inform you of GAI-MTL's decision to let lapse the Nuclear Materials License associated with the nuclear moisture-density gauges. The two gauges (**Serial #'s 13840 and 16375**) will be transferred to GCS-MTL Nuclear Materials License. The internal field equipment number associated with nuclear gauges (IP3-6190.0007) will be discontinued and no further charges will be approved through this number.

Please note that the maximum number of gauges that can be attached to this license is twelve (12). If any other office wishes to attach a gauge to this license please contact me so that appropriate measures (if possible) can be implemented.

If you have any questions, or require any additional information, please feel free to ask.
